

Red Foxes Newsletter

Welcome back to the new school year! I hope you all had a wonderful summer and we are all looking forward to lots of learning and fun this term.

This term children will have the opportunity to log on to Mathletics to develop maths skills through fun interactive games. Their login details have been stuck in their home contact books so they are also able to access the site at home.

PE sessions are timetabled for Mondays and Wednesdays. On a Wednesday the children will have PE with Team theme and this term it is football. Please remember, if your child wears earrings, to remove them on these days. Some sessions will be outdoors so, if the weather is warm, please make sure that your child is well sun creamed!

Have you looked at the school website it has a weekly blog linked to the learning happening in the Red Foxes. Go to www.bad.kent.sch.uk.

School reading books will continue to be changed three times a week. Monster reader stickers will be awarded for those children that read three times a week, with a prize awarded for those who do so all term. However, if you also wish to share other texts, such as newspapers, comics, recipes and favourite home stories, then this would be extremely beneficial.

Login to
DB Primary

In ICT lessons the children will be shown how to access DB primary which enables them to safely communicate with each other this can be done at home and school.

Home learning activities, linked to the week's learning, will be set on a Wednesday and are due in on a Monday. Spellings will be given out on a Wednesday and checked on the following Wednesday.

Outline of the curriculum

Term 1

Topic Ancient Greeks

Topic:

Our new topic is about the Ancient Greeks. We will be learning about life in Ancient Greece, school life, being a slave, the Olympics, food and feasts. Any resources such as books or films that you would like to share from home would be gratefully received.

Literacy:

We will be looking at different stories from the same author and traditional stories for example Aesop's Fables.

Maths:

Counting, place value, multiplication and division, fractions, measures and time.

Science:

Ourselves and animals. We will be sorting and identifying animals and their habitats.
