Section 1 - Introduction

In the implementation of this Scheme we have moved from a focus on an individual response to an approach that builds on race, disability and gender considerations from the start and at every level of the school, at strategic, policy, management and classroom level. We need to be able to demonstrate what we have done and what we plan to do to improve opportunities and outcomes for pupils, staff, parents and other users of the school. This scheme will be monitored and delivered through the governors' role, School Improvement and Self Evaluation process.

We will ensure that every pupil irrespective of race, disability, gender, religion and belief or sexual orientation is able to achieve high standards and that strategies are in place to tackle under-achievement. We will ensure that every pupil has access to the necessary support required to enable them to achieve their highest potential. We will ensure that the school's procedures for disciplining pupils and managing behaviour are fair, effective and equitable.

Our intention is to ensure that the adults working or volunteering in the school include as much as possible a balanced gender mix, appropriate representation of diverse ethnic groups and disabled people. We believe that this will provide good role models for pupils from all backgrounds.

We will involve pupils, staff, parents, carers, governors and all other stakeholders in the development of our Scheme. They need to be involved from the very start and their involvement will inform the preparation, development, publication, review and reporting of the Scheme. The aim is to ensure that we meet the needs of people from different ethnic backgrounds, boys and girls, and children and adults with disabilities.

*Provide a warm, friendly, caring, stimulating environment where children can develop self-confidence and increase their self-esteem and where they can enjoy learning and feel happy and secure.

*Help the children reach their full potential academically, physically, socially and morally by providing a lively and enthusiastic atmosphere and a curriculum that caters for individual needs.

*Encourage good working habits so that all children achieve their best.

*Help children develop a sense of responsibility and tolerance towards others and respect the school environment and the local community.

*Help children widen their interests by encouraging them to participate in a variety of activities.

The main system by which we will assess the impact of our current policies, functions or procedures will be through carrying out Equality Impact Assessments.

We need to understand whether our policies and services are meeting everyone's needs and that anyone who needs to can get access to them. To do this we undertake Equality Impact Assessments (EIA) to test how we are doing at the moment and what can be done better in the future. An EIA is a way of deciding whether a policy or service has a

“positive, negative or neutral impact” on some sections of society. It can also be used to test future policies or services. The impacts enable us to take into account the needs of women or men, Black, Asian and ethnic minority groups, disabled people, people’s religion or belief, sexual orientation or age. We take all external and internal complaints seriously and will not tolerate any form of discriminatory behaviour. Complaints about staff will be investigated using the appropriate Local Authority Procedures.

Monitoring complaints is also another way of gathering information to see whether we are meeting our equality duties. We will report annually on complaints made and action taken as part of monitoring the Equality Scheme.
